

## MAC 2005: Information Innovation - Charting New Territory Registration Information

Last year's "innovative" online registration will be available again this year as we continue to "chart new territory"!

Please read below for more conference registration information. The "Early Bird" registration deadline is August 26, 2005.

### Where do I register?

<http://www.acteva.com/booking.cfm?bevaaid=88100>

### Can I still pay by check?

Yes! Fill out your registration form and indicate you wish to pay by check. The final page is your receipt. Simply make 2 copies of this page and send one with your check to Acteva (their address will be on the receipt) and the other is for your records or travel request. Checks must be received two week prior to the event at Acteva for your registration to be honored. That should give institutions enough time to have checks cut and sent.

### Why are the checks going to Acteva and not MAC?

When we decided to do this, we decided that we should let them handle both the credit cards and the checks.

### Will I be able to register on-site using a credit card?

No. We will not have the facilities to take credit cards at the Registration Desk. On-site registrations must be made in cash or by check.

### Questions/Comments, please contact:

Kelly Near, Conference Registration Co-Chair

(434) 924-1607
