

**Report – Julia Shaw-Kokot  
Alternate Chapter Council Representatives  
October 2004**

**Attended Chapter Council meeting on Saturday, May 22, 2004, Washington, DC**

Paula has reported on this meeting. I will work on the Publications group and continue working with the Chapter Sharing Roundtables for next year.

**Attended Chapter Sharing Roundtables on Sunday, May 24, 2004**

These were very well attended! Due to demand, extra tables were added for several topics.

**Worked at the Chapter Council Display Booth on Monday, May 25, 2004**

One issue that came up before this meeting was about Chapter stickers and what should be given out. For this year, there was no change and we now have quite a few stickers left. However, a suggestion was floated and passed on to the MAC Board about give-aways or other handouts that would boost Chapter recognition. This will probably come up again around the first of the year.

**Monitor, collect MAC members thoughts and respond to posts on the Chapter Council listserv**

The main issue for this summer has been Roundtables. In response to the proposed list, MAC listed the following topics as the top six:

Informationists (27)  
Consumer Health (27)  
Technology Issues for Hospital Librarians (24)  
Electronic Document Delivery (23)  
Evidence-Based Medicine (22)  
Archives-Traditional and Electronic (21)

After these responses a database was set up, so while there may have been more responses, I do not have the data.
